

February 13, 2022

## Announcements

### Recovery Tutoring

Participation in Recovery Tutoring will be determined by:

- Scores on January's benchmark assessment (Lexia Rapid and Math Inventory)
- Report card scores in JumpRope that are 1.5 or less in one or more content areas

There are two different tutoring paths. One is for students missing significant work. The second is focused on skills and content recovery support. These tutoring sessions will take place over February break. Additional session options will be announced at a later time.

### Grade 8: NAEP this Wednesday

**Rutland Middle School** will participate in the National Assessment of Educational Progress (NAEP) on **February 16, 2022**. NAEP is the largest nationally representative and continuing assessment of what students know and can do in various subjects. NAEP is different from our state assessments because it is a common measure of achievement across the country. The assessment is administered by the National Center for Education Statistics, within the U.S. Department of Education. The results are released as The Nation's Report Card, which provides information about student achievement to educators, parents, policymakers, and the public.

Please see the [NAEP Parent Letter](#) regarding the 8th grade participation in this national assessment.

### Chromebook Reminder

- Students are responsible for the chromebooks assigned to them. If your student has a missing chromebook, please try to locate them and return them to the main office. Also broken chromebooks need to be returned, please do not discard them as they may be under warranty. *Missing chromebooks not returned will be billed during February break.*

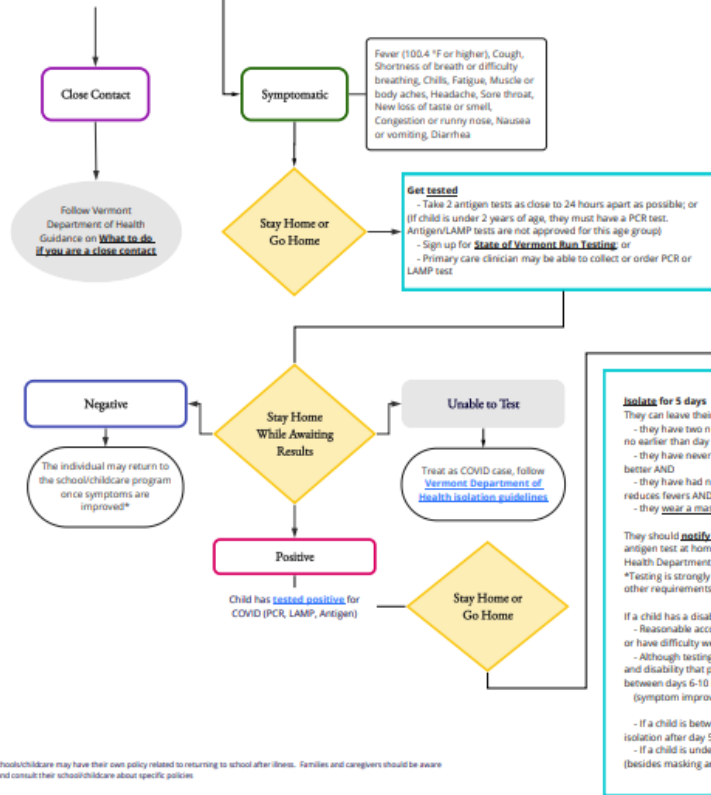

## Important Dates

February 21-25: February Break  
 March 4: Term 2 Ends  
 March 17-18: Student Conferences

## Pediatric Flowchart; Return to school/childcare COVID Guidance
